Business information:

We are a Swedish family business..

WETA-plast is a family business with 5 people employed today. It is situated in the Stockholm archipelago and belongs to the municipality of Österåker. The company has two workshops on Ingmarsö - of about 2000 square meters altogether. The company was founded in Vällingby in 1955 and was moved in 1975 to Ingmarsö by Lars Ljungberg.

Lars and his son Peter have together built the WETA-plast of today.

In the year 2000 the daughter-in-law Lotta took over as Managing Director.

Peter is design- and production manager and has been working full-time in the company since 1977.

The CAD/CAM- department is partly run by Jan-Åke "Jampa" Åkerström, who also makes constructions together with the customer and prepares for the CNC-mill.

The whole company have passed stage I and II of the competence work of EU Objective 4.

Activity description:

To offer products of thermo plastic by vacuum forming to the market, mainly technical goods, based on customer specific- as well as our own designs.

Always to find the most adequate solution to the needs of the customer and to identify new manufacturing- and combination possibilities in the process.

To strive for adjustment to the demands of the market in order to achieve the best benefit for the customer.

Goal:

Some of our goals..

- We shall remain a Swedish family business in order to profile quality alignment
- We shall limit the number of employees to 15 at the most to achieve the best wellbeing for the staff and optimal quality control
- 50% of our turnover shall come from the manufacturing of system solutions, that is from drawing to packaging of completely manufactured and combined products, in order to increase our competitiveness
- We shall offer five days' paid training per co-worker and year with the purpose to broaden the competence and the quality thinking of the employees
- ♦ ISO 9001 the system is documented and applied, the next step is internal audit
- ✤ ISO 14000 will start when ISO 9001has been carried through or at the request of our customers.. We are, however, actively working with recycling of all our material since 1976.

Quality policy:

To fulfil the demands and expectations of the customer so that he will come back to us and preferably surpass the expectation of the customer regarding service level.

To deliver the correct product of the correct quality at the right time. To aim at zero errors in deliveries to the customer.

Always to improve the operations and thereby secure the Q-policy being checked in view of continued suitability.

The management shall see to it that the staff well understand and apply this policy.
